Premier Hopeful After Receiving Practically a Vote

BRINGS SPIRITED SCENE Thunders Answers Towards Opposi-

LONDON, May 26 .- An enthusiastic welcome to Mr. Lloyd George on the eccasion of his return from Genoa was given today by a gathering of par-Hamentary leaders at a luncheon Viscount Long of Wraxall presided Lord Long, in proposing a toast to Mr. Lloyd George, declared that at Genoa Mr. Lloyd George was pursued by calumny and abuse. The enemy did not

meet the premier in the open field, he asserted, but preferred to attack him from the editorial chair. In response the premier said:

"Genoa has not ended. It will go on to the end. I am interested to note how the alleged friends of peace predicted the failure of Genoa with a persistence that suggested the wish was father of the thought. Europe is so desirous of peace, and so needful of it that I feel the chariot of peace will ultimately be forced through to the desired goal. Six weeks was too short to complete the task and remove all misunderstandings."

Mr. Lloyd George declared, "but when the common cause of the empire demands it. I and my friend. Lord Balfour, who so often have fought face to face, are content to fight side by side. Let the same spirit actuate us all — Great Britain, Europe and the world. We are not yet out of danger, and while a common danger exists abroad or within our own country let all men be content to fight side by side in opposition to those common dangers."

Press Takes Opposite View.

The editorial comment in London newspapers today on Mr. Lloyd George's Genoa speech is directly opposed to that of the house of commons, which gave him practically a vote of confidence slast night. By the Associated Press.

NEW YORK, May 26.—Elbert H. Gary in his address as president of the American Iron and Steel Institute, in session at Hotel Commodore today, advocated that Congress take the tariff out of politics, that it play no favorites in its tendency to regulate things; that it substitute a sales tax for the income tax and that it forget the soldier bonus until the nation is less severely burdened financially. As for the business future of America, Mr. Gary described himself as "still an optimist." In the iron and steel in dustry, he said, "the profits are not satisfactory, but few, if any, ought to be doing business at a loss." "Pity the blind, deaf and foolish

Further indications that the day-light saving plan now in force, in part, here is unpopular was contained in the expressions of the peeple of Washington on the coupons printed in The Star for the purpose of determining the real sentiment in Washington on the proposition.
